

2022 GLAA Questionnaire
Completed by Libertarian Candidate Dennis Sobin

“Hello, I’m Dennis Sobin, DC Candidate for Mayor. As you know, too much food, drugs or sex may not be good for you. But I believe that what adults do with their bodies is their business and not the business of our government. Laws and police need to protect us from others, not from ourselves. As mayor I would put every plainclothes officer in uniform and make sure they work to prevent real crime, not entrap victimless offenders. Our current mayor has made DC unsafe. Murders, assaults and public shootings are at an all-time high. We need to change police tactics to give police the respect and community support they need and deserve. No more should police be used to test the virtue of citizens through undercover entrapment. We have very good pastors, ministers and rabbis to look after our souls. The police need to look after our safety. As the elected Libertarian candidate for mayor (elected in the June 21 primary election), I want your vote in the general election on November 8 to send a message that we want to walk the streets of DC—any street at any hour—in safety.

“Regarding your questions, here is my answer to all of them, reflecting the fact that we are dealing with a non-simplistic, highly fucked-up situation. I would appoint a commission of community leaders knowledgeable in each area and follow their advice. I don’t want to make any promises now that I may not be able to deliver on later. Thank you.”
